## 85 Years of Connecting with Nature

Our belief has grown more powerful from experience. For over 85 years, we've been releasing the goodness within plants to create products with the best elements of nature. It all started in Walzenhausen, a small village nestled high within the Swiss Alps, when Ulrich Jüstrich pioneered a uniquely natural approach to achieving health and total well-being using the beneficial effects of nature in harmony with the human body. Today, this small company has grown beyond the borders of the village into a well-respected international brand sold in 35 countries around the world.

Just Manufacturing Plant

# The art of creating special moments

## 100% Pure, Pharmaceutical Grade Essential Oils

Only the best and purest essential oils will deliver the desired effects to the human body and mind. To ensure the quality of every Just Essential Oil, comprehensive tests are performed to each batch to control specific parameters listed in the existing pharmacopoeia. This is how we are able to ensure their chemical composition is pure, safe, potent and natural. Altogether they establish the unique "fingerprint" of each essential oil. Choose from 12 essential oils to meet your every need. Choose the one that best suits your specific moment and immerse yourself in the intense aromas of luxurious Just Essential Oils.

## Ways to enjoy Just Essential Oils

**Burner/Ultrasonic Diffuser:** Add 5 drops of essential oil into hot water.

**Tissue:** Put 1-2 drops of essential oil on a tissue, rest lightly on your face and inhale.

**Pillow/Air/Body:** Blend your favorite essential oil into the Aromablends Mist and spray on your pillow, clothes, body or directly into the air for a quick change of mood.

**Baths:** Add 3 drops to a sitz bath. For a hand or foot bath, add 5 drops blended into bath salts or any Just Bath, to prevent them from floating on the surface of the water.

**Compresses:** Place 3 drops in cold or warm water depending on need. Soak a washcloth and apply to the desired area. Re-soak the cloth each time it loses the desired temperature.

**Body Massage:** Dilute 3-5 drops of essential oil in a capful of Sweet Almond Oil or a teaspoon of Aromablends Body Lotion or Body Oil.

**Direct application:** Place 2 drops on the desired area.

**Inhalations:** Add 5 drops to ½ liter of boiled hot water, cover head with towel and lean over the bowl for direct inhalations. Add 5 drops in a pot of boiling water so that the molecules of essential oils diffuse into the air.

**Mouthwash:** Add 2 drops in a glass of either cold or warm water and rinse.
